Labelmate

CAT-16 Heavy-duty WIDE-WEB LABEL REWINDER / UNWINDER

The LABELMATE Model CAT-16 Heavy-Duty Label Rewinder brings LABELMATE's CAT (Constant Adjustable Torque™) to a new Wide web Label Rewinder / Unwinder. It can be used as a Rewinder directly "in-line" at the output of a printer for web widths up to 400 mm (16 Inches). The CAT-16 when used as an Unwinder, together with the LABELMATE S-500 (40 cm wide Label Slitter / Rewinder), forms a complete "off-line" wide web label slitting and rewinding station. You get easy set-in-place installation with this industrial-quality product constructed from heavy-gauge steel. Provision to bolt the CAT-16 to the tabletop is included.

The CAT-16 Label Rewinder shown loaded with a wide roll of labels.

Put the LABELMATE CAT-16 Heavy-Duty Wide Web Label Rewinder to work for you, today!

SPECIFICATIONS

Rewind Core Size: Accepts standard 76 mm rewind cores.

Speed: Same as printer in in-line use. Automatically tracks printer speed up to 75 cm/sec.

Torque Control: LABELMATE's renowned Constant Adjustable Torque™ control system allows precise adjustment of rewind force.

Auto-Stop: Allow external control of the CAT-16 from a printer or the S-500 Label Slitter/Rewinder.

Width: Handles label webs up to 400 mm (16 Inches) wide. Rolls up to 300 mm in diameter.

Power Supply: 100-240vac 50-60Hz 1.2A max. UL / CSA / TÜV / CE listed.

Maintenance: No maintenance is required.

Warranty: Limited 3-year Parts and Labor Warranty. (One (1) year Warranty on included power supply module.)
