

SLIT-100 & SLIT-200 SLITTING STATIONS

COMPLETE "OFF-LINE" LABEL SLITTING SOLUTIONS

- *Money-saving production packages!*

Here's the most convenient solution for slitting and rewinding narrow labels. LABELMATE Label Slitters allow you to print small labels several across ("up") and then slit them to the desired width. This multiplies your print efficiency by a factor equal to the number of labels across, and dramatically increases your print head life and ribbon usage efficiency. Now LABELMATE brings together all the items you need in these new Off-Line Slitting Stations and saves you money at the same time.

First, you print your narrow labels several across and rewind them onto a single core. This allows you the maximum printing production rate. Then, you bring your labels to a LABELMATE SLIT-100 or SLIT-200 Slitting Station. There you slide your label roll onto the Unwinder, run the labels through the Slitter, and rewind them onto your narrow cores on the CAT-2 Rewinder. Because this operation is being done Off-Line, you can slit at speeds up to 30 inches per second, or even more. Your setup is easy because you don't have to deal with the printer at the same time.

An optional six- (6) digit PC-1 Pre-set Counter allows you to pre-set the number of labels to be slit. When the counter reaches the preset number, it sends a "HALT" signal to the CAT-2 Rewinder. Power to the CAT-2 rewind motor is then shut off and braking is applied. You'll have no annoying label spills to contend with.

The easily replaced slitting blades are click-adjustable, maximizing their useful life. Special, very sharp, high-speed blades are included. Order extra HSB-10 Blades supplied in convenient 10-Blade dispensers. No tools are required for blade adjustment or replacement. During slitting, the blades are stabilized with LABELMATE's proprietary system, giving a clean cut at all speeds. Rugged, heavy-gauge welded steel construction and precision parts yield a product of the highest quality. Put a LABELMATE Heavy-Duty Label Slitting Station to work for you, today!

ORDER MODEL	INCLUDES ALL YOU NEED EXCEPT CORES	WIDTH	SPEED
SLIT-100	<ul style="list-style-type: none"> • UCAT-S Heavy-Duty Label Unwinder; • S-100 Heavy-Duty Label Slitter; • 2 Blade Holders with Blades; • CAT-2-CHUCK Heavy-Duty Rewinder; (3" Core Chuck Standard, specify if 1.5", 40mm, or 70mm size instead.
