

"COUNT" Label Counters

COUNT-100

COUNT-100 & COUNT-200 Counters

The PC-1 Label Counter is a popular option on our S-100 and S-200 Label Slitters. Many times, however, users don't need to slit labels, just count them. To save users money, LABELMATE has two Label Counters based on the S-100 and S-200 Slitter chassis but without the Slitter function. The COUNT-100 and COUNT-200 will handle label webs up to 170 mm and 255 mm wide respectively. A CAT-3 Rewinder pulls the labels through the counter. The versatile Counters can be used at the output of a printer, or can be used with an Unwinder and a CAT-3 Rewinder to form a stand-alone off-line label inspection / counting station.

If desired, when the pre-set count is reached, the COUNT-100 and COUNT-200 can send a "HALT" signal to the CAT-3 Rewinder, causing it to stop.

The counter sensor itself is a state-of-the-art infra-red transmitting device that shines through the label web and detects the gap between successive labels. There is a sensitivity control to adjust for different kinds of label webs.

Heavy-Duty Label Counters.

- *Preset Counter counts up or down.*
- *"U" version for transparent labels.*
- *"Off-line" or "On-line" counting.*
- *3- Years Parts and Labour Limited Warranty.*

COUNT-100-U Universal Counter

The new **COUNT-100-U** Universal Counter uses a state of the art ultrasonic fork detector that allows the **COUNT-100-U** to count almost any type of labels, including transparent or dark labels. The ultrasonic detector detects the labels by sensing the difference in thickness between the backing paper and the backing paper plus label.

Quality and reliability are cornerstones of the LABELMATE Product Line. Rugged, heavy-gauge welded steel construction and precision parts yield a product of the highest quality. LABELMATE Products are trouble-free and covered by our famous 3-Year Parts and Labor Limited Warranty, by far the longest in the industry.

If you do need to slit labels, be sure to check out the S-100 and S-200 Complete Off-Line Slitting Stations that are also available with the label counting function described here.

COUNT-100-U

P/N	MODEL	DESCRIPTION	LABEL WIDTH (mm)
LMC005	COUNT-100	PC-1 Preset Counter mounted on chassis with guides to position label web through sensor gap. Adjustable counter sensitivity. Counts single labels or preset batch size. Can stop rewinder (CAT-3) automatically when job is finished. Size: W x D x H: 355 x 280 x 250 mm.	170
LMC006	COUNT-200	Same as COUNT-100 with wider width capacity. Size: W x D x H: 435 x 280 x 250 mm.	255
LMC007	COUNT-100-U	With ultrasonic fork detector to count any type of labels PC-1 Preset Counter mounted on chassis with guides to position label web through sensor gap. Adjustable counter sensitivity. Counts single labels or preset batch size. Can stop rewinder (CAT-3) automatically when job is finished. Size: W x D x H: 355 x 280 x 250 mm.	175

Shipping Weight: Approx. 7 Kg.
